10.8 Business Local Calling Package (Cont'd)

Requirements and Limitations

Customers must meet the following eligibility requirements and adhere to the limitations in order to qualify for and maintain Business Local Calling Package:

- 1) Customers must sign up for a 1-year, 2-year or 3-year term.
- 2) Additional package lines may be added to the account during the initial term. No new package lines may be added to the account after the expiration of the original term unless a new agreement is established.
- 3) A customer's Business Local Calling Package charges cannot be billed on the same account as the same customer's PrimePath Standard lines, if any.
- 4) Customers must maintain all lines on the plan for the duration of the term.
- 5) The line Option selected is per line, and cannot be changed after the term ends unless a new agreement is established.

Customers with existing PrimePath Standard lines may change those lines to Business Local Calling Package lines and may add or change Optional Components and Discounted Bolt-on Components as long as all above listed criteria are met.

The non-recurring Service Order Charges and any Feature Change Charges associated with features included in the Business Local Calling Package will be waived at the time of the change from PrimePath Standard lines to Business Local Calling Package Rate. Future feature additions or changes will result in the billing of standard non-recurring charges as listed in this Tariff.

Customers are required to pay the monthly recurring charge as specified in the Price List whether or not any or all Optional Components are activated. Other features that are not included in the Business Local Calling Package may be added for the additional standard monthly recurring and/or non-recurring charges as listed in this Tariff.

See the Price List.
